ACA34EU | Targus USB 3.0 Express Card Adapter

An ExpressCard is the quickest way to install USB 3.0 SuperSpeed on a laptop or notebook. The process is painless. Slip the card into your ExpressCard slot and it will be recognized and working in seconds.

Transferring large amounts of data currently takes a lot of time but with USB 3.0 latest technology advances, that time can be reduced considerably.

The new Targus USB 3.0 ExpressCard adapter will turn your laptop into a high speed productivity centre, whether for transferring large media files or backing up your precious corporate files to a compatible HDD.

Its flush design will help you conceal the card and allow you the freedom to stow your laptop or notebook without fearing damage to it or your PC.

34 mm Express Card

Adds USB 3.0 functionality to existing laptops and notebooks

Up to 5 Gbps transfer speed

Up to 10x faster than USB 2.0 Also accepts USB 2.0/1.x devices
